Modoc Doula, Heather Pimentel

403 N East D St. Alturas, CA 96101

PRACTICE POLICIES

APPOINTMENTS AND CANCELLATIONS Please remember to cancel or reschedule 24 hours in advance. If you are a non-medicaid patient, you will be responsible for the entire fee if cancellation is less than 24 hours.

A \$35 service charge will be charged for any checks returned for any reason for special handling.

Cancellations and re-scheduled sessions for non-Medicaid recipients will be reviewed on a case-by-case basis and maybe subject to a full charge if NOT RECEIVED AT LEAST 24 HOURS IN ADVANCE. This is necessary because a time commitment is made to you and is held exclusively for you. If you are late for a session, you may lose some of that session time.

TELEPHONE ACCESSIBILITY If you need to contact me between sessions, please leave a message on my voicemail. I am often not immediately available; however, I will attempt to return your call within 24 hours. Please note that Face- to-face sessions are just as preferable to phone sessions. In the event that you are out of town, sick or need additional support, phone sessions are available as scheduling allows. If a true emergency situation arises, please call 911 or any local emergency room.

SOCIAL MEDIA AND TELECOMMUNICATION Due to the importance of your confidentiality and the importance of minimizing dual relationships, I do not accept friend or contact requests from current or former clients on any personal social networking site (Facebook, LinkedIn, etc). I believe that adding clients as friends or contacts on personal social media sites can compromise your confidentiality and our respective privacy. It may also blur the boundaries of our therapeutic relationship. Please feel free to follow and tag the business pages of Modoc Doula. If you have questions about this, please bring them up when we meet and we can talk more about it.

ELECTRONIC COMMUNICATION I cannot ensure the confidentiality of any form of communication outside of SimplePractice; this includes communication through electronic media, including text messages. If you prefer to communicate via email or text messaging for issues regarding scheduling or cancellations, I will do so. While I may try to return messages in a timely manner, I cannot guarantee immediate response. I do request that you use the SimplePractice portal for communication to discuss therapeutic content and/or request assistance for emergencies. Services by electronic means, including but not limited to telephone communication, the Internet, facsimile machines, and e-mail is considered telemedicine by the State of California. Under the California Telemedicine Act of 1996, telemedicine is broadly defined as the use of information technology to deliver medical services and information from one location to another. If you and your therapist chose to use information technology for some or all of your treatment, you need to understand that:

1. You retain the option to withhold or withdraw consent at any time without affecting the right to future care or treatment or risking the loss or withdrawal of any program benefits to which you would otherwise be entitled.
2. All existing confidentiality protections are equally applicable.
3. Your access to all medical information transmitted during a telemedicine consultation is guaranteed, and copies of this information are available for a reasonable fee.
4. Dissemination of any of your identifiable images or information from the telemedicine interaction to researchers or other entities shall not occur without your consent.
5. There are potential risks, consequences, and benefits of telemedicine. Potential benefits include, but are not limited to improved communication capabilities, providing convenient access to up-to-date information, consultations, support, reduced costs, improved quality, change in the conditions of practice, improved access to treatment, better continuity of care, and reduction of lost work time and travel costs. Effective treatment is often facilitated when the healthcare provider gathers within a session or a series of sessions, a multitude of observations, information, and experiences about the client. The provider may make assessments, diagnosis, and interventions based not only on direct verbal or auditory communications, written reports, and third person consultations, but also from direct visual and olfactory observations, information, and experiences. When using information technology in services, potential risks include, but are not limited to the provider's inability to make visual and olfactory observations of clinically or therapeutically potentially relevant issues such as: your physical condition including deformities, apparent height and weight, body type, attractiveness relative to social and cultural norms or standards, gait and motor coordination, posture, work speed, any noteworthy mannerism or gestures, physical or medical conditions including bruises or injuries, basic grooming and hygiene including appropriateness of dress, eye contact (including any changes in the previously listed issues), sex, chronological and apparent age, ethnicity, facial and body language, and congruence of language and facial or bodily expression. Potential consequences thus include the provider not being aware of what they would consider important information, that you may not recognize as significant to present verbally to the provider.

MINORS If you are a minor, your parents are not legally entitled to any of your perinatal treatment or planning without your written consent.

TERMINATION Ending relationships can be difficult. Therefore, it is important to have a termination process in order to achieve some closure. The appropriate length of the termination depends on the length and intensity of the treatment. I may terminate treatment after appropriate discussion with you and a termination process if I determine that the treatment is not being effectively used or if you are in default on payment. I will not terminate the therapeutic relationship without first discussing and exploring the reasons and purpose of terminating. If treatment is terminated for any reason or you request another provider, I will provide you with a list of qualified Doula to treat you. You may also choose someone on your own or from another referral source. Should you fail to schedule an appointment for three consecutive weeks, unless other arrangements have been made in advance, for legal and ethical reasons, I must consider the professional relationship discontinued.
